2.0 Old Age Pension amount Distribution

In TEV Most of the Cuddalore elders used to get their pension in their respective villages, whereas they have to pay Rs50 as a commission to the post man and get their pension. This matter was brought to the collector's knowledge, and the action was taken immediately, this was reported to the head of the postal department and solution was brought that the post man should come to the elders village and it should be delivered without any commission. It is also said that, the post man mobile number should be given to all elders and he may be called if there is any delay. This matter brought great welcome from the elders village. Now the elders are happy about the action.

2.1 Elders and pets "Special Story"

The recent development in TEV is to introduce "Elder and their Pet's". Since the pet ownership is especially common among elders, based on the observation for the last one year, we found that most of the elders who were pet animals, like cats, cows, dogs, birds and some other pet animals. The bonds they develop with their pet animals are so strong indeed. Elder Poorani with her Ram cat and Sita is the talk of the TEV. She loves to feed them and often we can find her roaming with her cats. They now spend most of the time with the pets which are reliable.

Elder Prema loves keeping birds, feeding them grains (she is looking after 2 pairs of love birds). Elder Rukmani keeps Varalakshmi cow as her pet; feeds grass everyday besides taking her for grazing and a weekly bath.

Elder Shanmugam is looking after his cow Mahalakshmi, elder Veerabathran looks after his cow Subalakshmi and elder Natarajan looks after his cow Swarnalakshmi. They are attending milching milk; cleaning and taking rounds with them for grazing. Elder Krishnamma and Vedambal look after the calves Hari, Krishna, Saranya and Lavanya. This is great in TEV, having this kind of attitude among the elders.
